

## Reception - Autumn 1 - Homework Grid

Choose one of these things to do once a week as it would be great to show us what learning you can do at home! Bring it in on a Wednesday and we will look at it all together.

### Problem

There are 4 cars in the toy box. How many wheels are there all together? Draw a picture to help you or even find 4 cars and count the wheels. Record your answer.

### Teddytastic

Can you draw a picture of your favourite teddy bear? Have a go at labelling the parts of your teddy; head, eyes, etc.

### Toys, Toys, Toys

Can you use junk modelling or construction to make your own toy? What joining techniques have you used? Can you take a photograph to share with everyone.

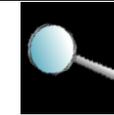

### 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Can you practise writing your numbers to 10? Make sure all the numbers are the right way round!

We have included a numberline for you to copy, maybe you could make your own.

This is a great website to play on to help you practise your phonics and reading. Challenge yourself on the free games such as 'Obb and Bob', 'Buried Treasure' and 'Pick a Picture'. Have fun!

Let us investigate!

Have a look at your toys at home. Can you find a toy that can move, a toy that makes a sound and a toy that lights up? How do you make them work? Do you need to push a button? Do they have batteries? Do they wind up? Talk to a grown up about the different ways your toys work.

### Games

Play a game with some people in your family where you have to take turns and follow rules. Why is it important to follow rules and take turns when you are playing a game?

### Talk to an older relative

about the toys that they used to play with when they were little. How were they different to yours? What was their favourite toy?

### Draw

Draw a picture of your favourite toy. What is it called? Can you say why it is so special?
